Sewer System Improvement Program | Grey. Green. Clean.

San Francisco's Eight Watersheds

EVERYONE LIVES IN A WATERSHED

Which watershed do you live in?

Rain that falls in the three western watersheds flows to the Pacific Ocean and rain that falls on the five eastern watersheds flows to the San Francisco Bay.

PACIFIC OCEAN

SAN FRANCISCO'S WATERSHEDS

San Francisco has 2 major drainage basins made up of 8 smaller watersheds. The city will be developing plans for each of the eight watersheds.

SAN FRANCISCO BAY

● Wastewater treatment plants

Levels of Service Goals

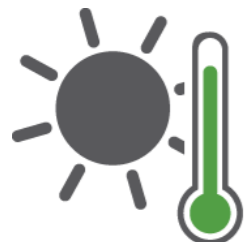

Provide a Compliant, Reliable, Resilient, & Flexible System that **Respond to Catastrophic Events**

Integrate Green & Grey Infrastructure to **Manage Stormwater** and **Minimize Flooding**

Provide **Benefits** to Impacted **Communities**

Modify the System to **Adapt to Climate Change**

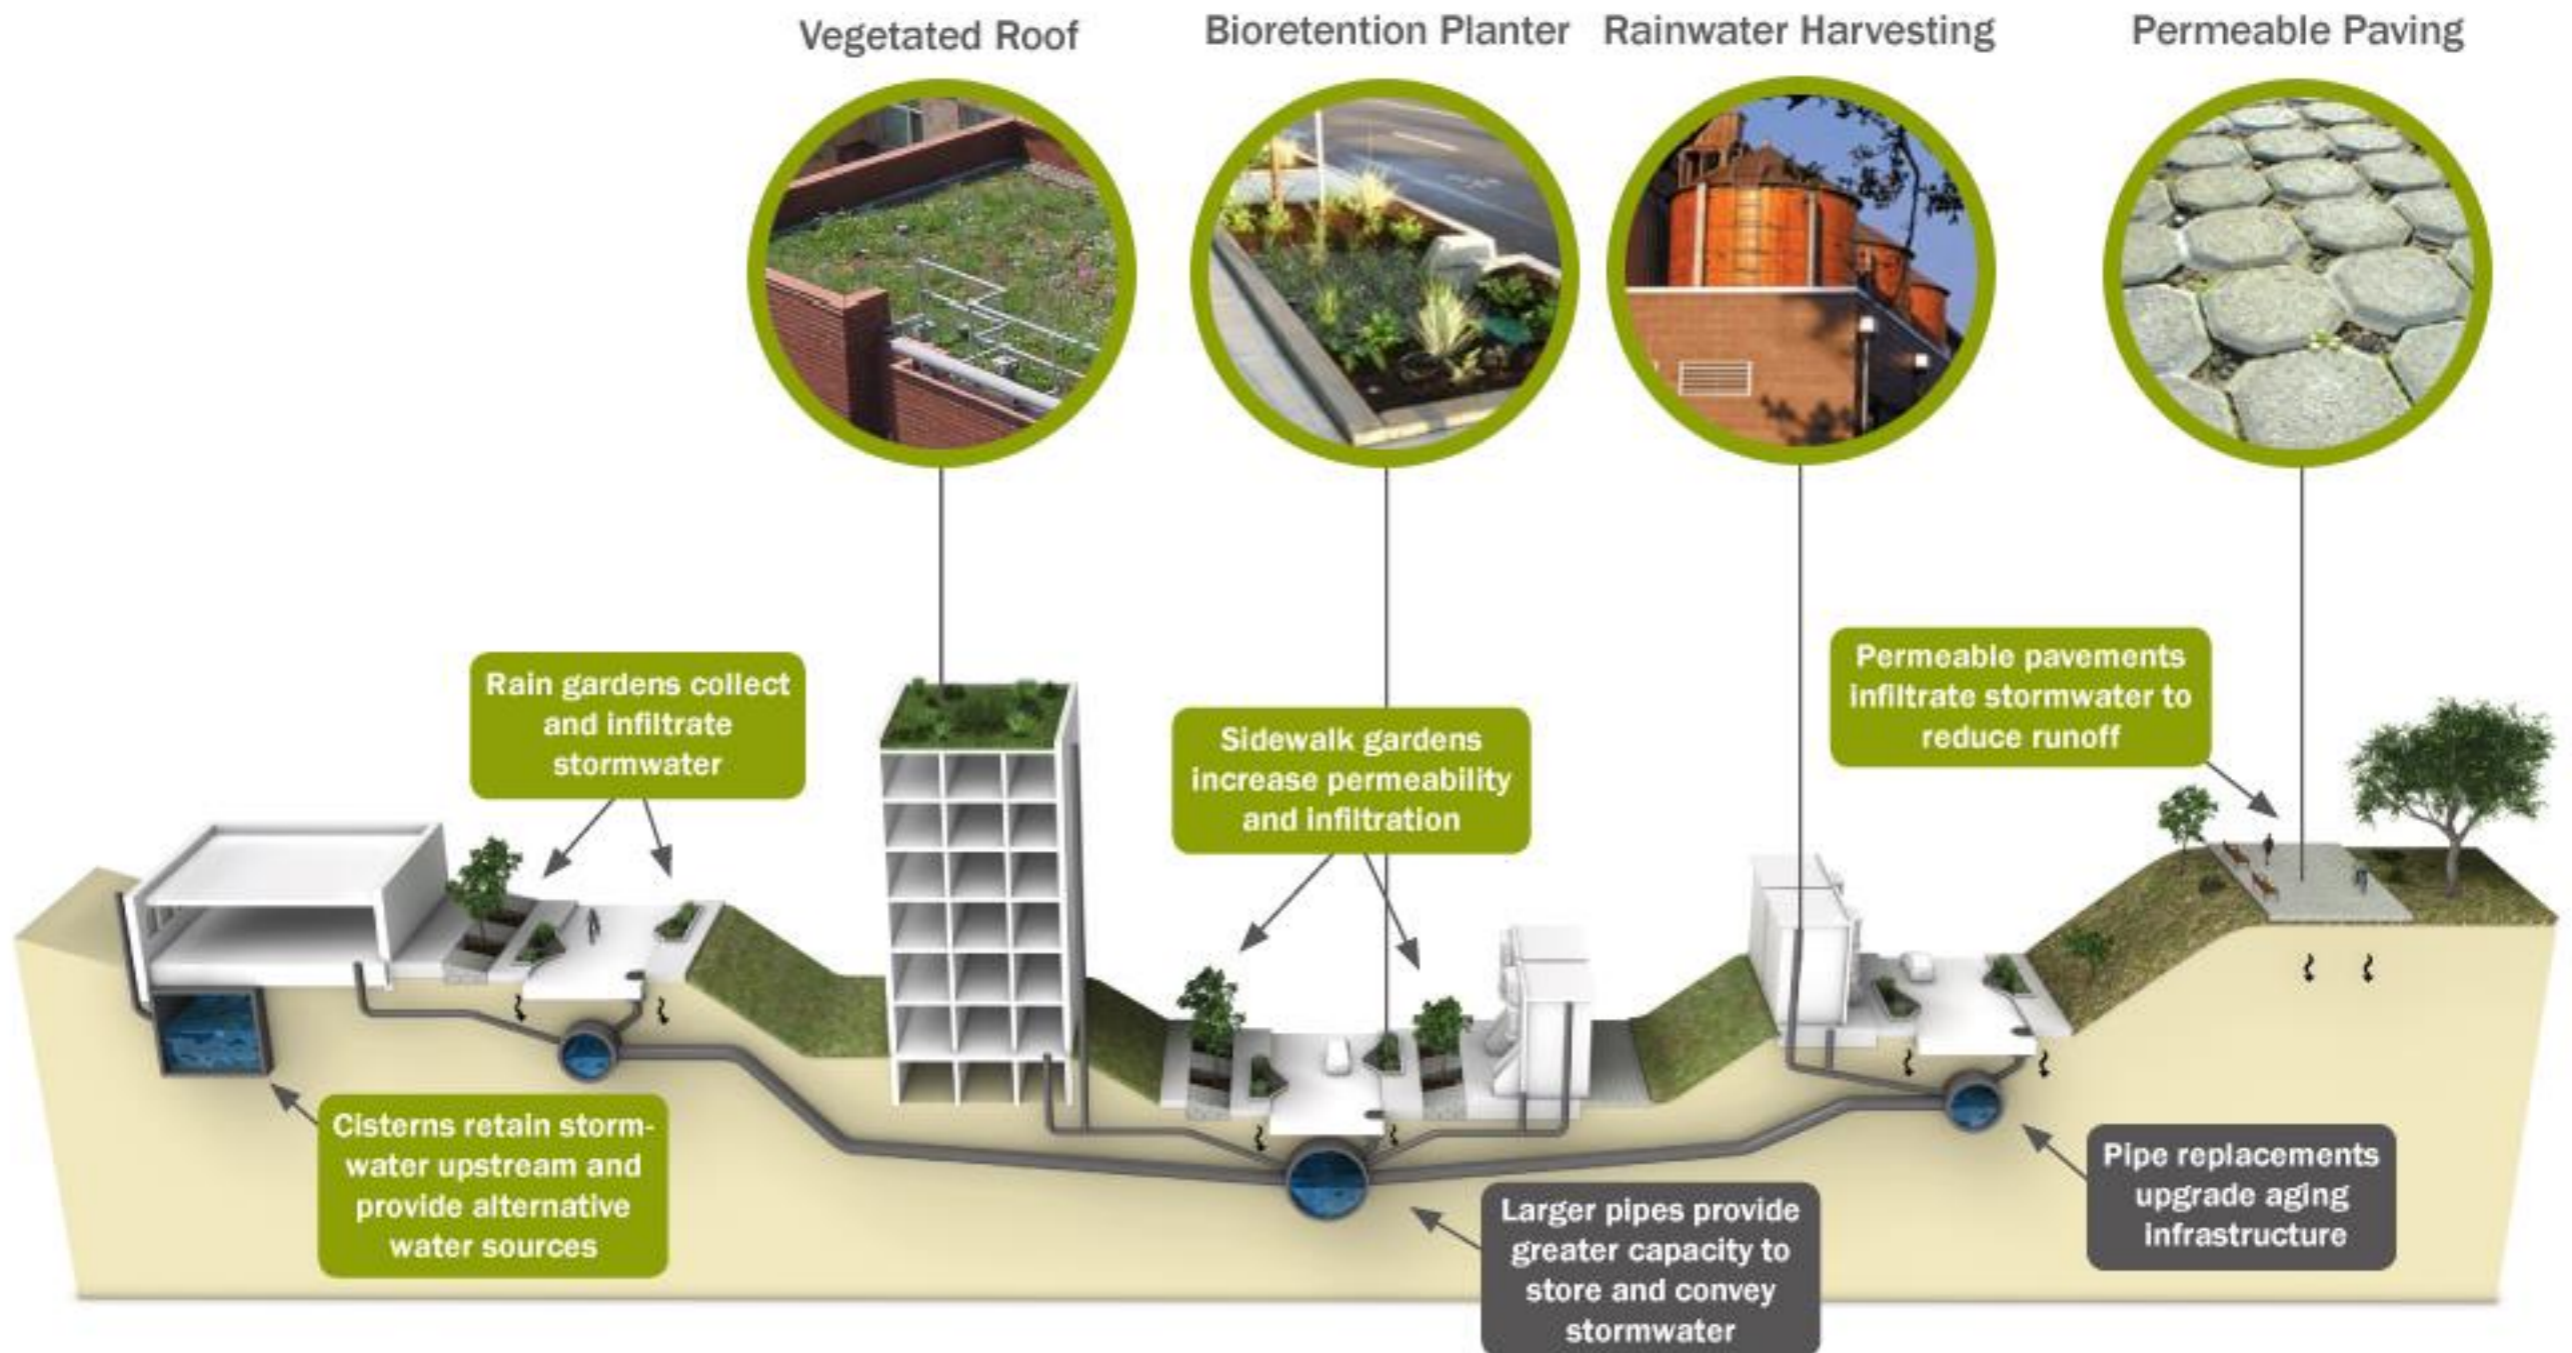

Achieve **Economic & Environmental Sustainability**

Maintain **Ratepayer Affordability**
